[Presell/Intro video – targeted to coffee drinkers]

Hi there! Here's a quick question for you...

Do you know how much you spend on coffee each year?

If you're like most coffee drinkers, it can be a pretty penny.

In fact, the latest data shows that Americans spend an average of just over \$20 a week on their coffee habit!

That comes to about \$1100 a year!

Now consider this...

If you do more than 4-5 trips to your local Starbucks' every week, chances are that you're spending even more than the national average!

In any case, you probably got to this video because like tens of millions of other Americans, you love your coffee...

What's more, you *pay dearly for it!*

If it's any consolation, you're in good company!

But what if I told you that instead of spending about \$1100 a year to satisfy your coffee fix, you could get your coffee *for free* and even get paid over and above that amount instead?

As much as several times over... *just for drinking coffee?*

Crazy huh?

Better yet... what if you could also lose weight and get healthier while doing it?

If you're even slightly intrigued...

Because you're at the right place *at the right time.*
